Technical Support Engineer | Endpoint Security & Troubleshooting

Detail-oriented Technical Support Engineer with 1.5+ years of experience in troubleshooting, incident investigation, and client support for enterprise environments. Skilled in analyzing issues, managing support tickets, and delivering timely resolutions. Experienced in working with global clients and handling endpoint security platforms.

SOFT SKILLS

Critical Problem Solving | Technical Communication | Strategic Management | Collaborative Mindset

WORK EXPERIENCE

Sophos Technologies Pvt Ltd, Hybrid

January 2025 - March 2026

Technical Support Engineer

- Provided technical support to enterprise clients by troubleshooting endpoint and security-related issues across Windows, macOS, and mobile environments.
- Handled client incidents through ticketing systems, ensuring timely response, accurate documentation, and effective resolution.
- Performed initial triage, investigation, and root cause analysis of security alerts using EDR/XDR tools, leveraging Wireshark, Process Monitor (PML logs), ETL/Event Trace logs, and Sysinternals Suite for in-depth troubleshooting.
- Analyzed logs and monitored system activity using Logz.io to identify anomalies and resolve complex issues.
- Worked extensively with Sophos Central, Sophos Mobile, and Endpoint Management solutions for policy configuration, device management, and issue resolution.
- Supported MDM/SMC environments, troubleshooting mobile device security and management-related issues.
- Escalated complex or recurring issues to senior teams with detailed analysis and well-documented case history.
- Maintained clear and professional communication with global clients throughout the issue lifecycle, ensuring high customer satisfaction.
- Collaborated with cross-functional teams to drive incident resolution and contribute to continuous service improvement.

INTERNSHIP

Sophos Technologies Pvt Ltd, Ahmedabad

May 2024 - January 2025

TSE Intern

- Assisted in frontline support operations by resolving endpoint security issues for enterprise customers.
- Used Salesforce CRM for ticket logging, tracking, and maintaining detailed case documentation.
- Supported troubleshooting across Windows, macOS, and mobile environments.
- Gained hands-on experience in customer communication and issue handling under supervision.

BISAG-N, Gandhinagar

December 2023 - April 2024

Project Intern

- Learned and worked on a Text Summarization Project Using Machine Learning, NLP and Python.

Brainy Beam, Remote

July 2023 - August 2023

Python/Django Intern

- Implemented Python and Django project that automates the delivery of blood reports to provide patients with data-driven health insights alongside their clinical results.

Trainee
